- Paper Plates(2 packages any size)

Art Supplies

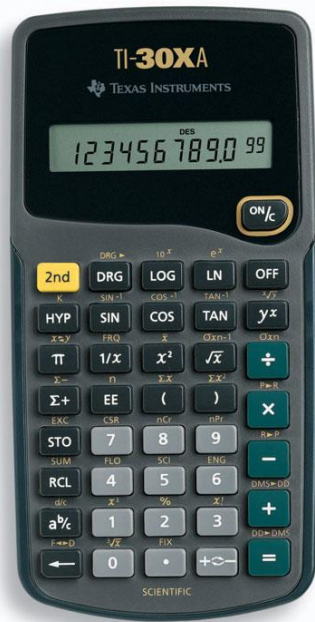

- Crayons
- Glue Sticks
- Markers
- Colored Pencils
- Bottle of Elmer’s glue

PLEASE LEAVE NOVELTY ITEMS AT HOME
(There is no need for a two foot long pencil or “toys” in your desk.)

Students may bring items to decorate their lockers. I will not allow items to be taped to the inside of lockers, so a small pack of magnets might be needed.

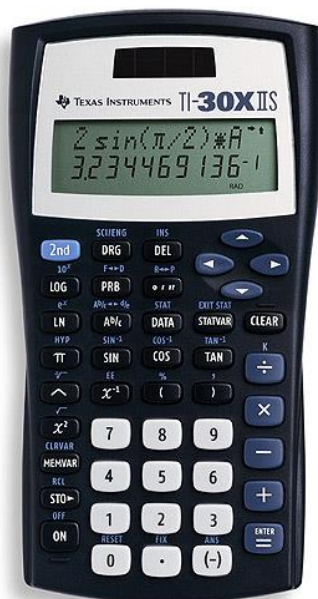

Math Items

- Compass – the thing that makes circles
- Ruler – metric and inch marks
- Protractor
- Calculator – Please get a Texas Instrument TI-30. There is a variety of TI-30 such as the TI-30XA or the TI-30 IIS. You should find them at Target or Wal-Mart for around \$10. I have included pictures on the reverse side.

TI-30XA

I prefer this calculator to others. It is also less expensive and will do all the functions required through Algebra I. I will have a few of these calculators available for students to borrow. It will be beneficial for everyone to have their own calculator

TI-30 IIS

This calculator, or other TI-30 calculators, will also work for students.
